## **DETAILED ACTION**

### ***Election/Restrictions***

Claims 1, 14, 20, 30, 40, 51, 60, 70, 80, 90, 95, 100, 105, 110, 120, 125, 139, 150, 154, 164 and 166 appear generic to the following disclosed patentably distinct species and sub-species:

- Species I: Figures 1-5
- Species II: Figures 6-8
- Species III: Figure 12
- Species IV: Figures 17 and 18
- Species V: Figures 21 and 22
- Species VI: Figures 23-25
- Species VII: Figures 26-32
- Species VIII: Figures 35-38

#### **Sub-Species**

- Sub-Species I: Figure 13
- Sub-Species II: Figure 14
- Sub-Species III: Figure 15
- Sub-Species IV: Figure 16
- Sub-Species V: Figure 16A

The species and sub-species are independent or distinct because they disclose different arrangements of the shift knob and sub-assemblies of the instant application.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species and sub-species, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species and sub-species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species and sub-species. MPEP § 809.02(a).
